

SKYWARD TECHNOLOGY SOLUTIONS IT PARTNERS

SKYWARD WORKS WITH MANY BUSINESS PARTNERS – BELOW IS A LIST OF COMMON COMPANIES AND PRODUCTS, AND WHAT THEY OFFER SCHOOL DISTRICTS.

Aruba

Skyward Technology Solutions' recommended solution for all edge access networking equipment from network switches to wireless LANs. Aruba offers a broad range of hardware and management options.

CyberNut

CyberNut, built exclusively for K-12 schools, trains teachers, administrators, and students across the country to help identify and report phishing emails in an engaging environment.

Dell/HPE

Recommends Dell or HPE for servers. Skyward is an HP Gold Partner. We will work with your district to create a server and SAN quotes using state contract pricing.

Extreme

Helps IT teams radically simplify wireless and wired access with Cloud Networking. Technology is sophisticated yet straightforward, offers unrivaled choice and flexibility, and continually solves real-world problems with continuous innovations.

Fortinet

Delivers high performance network security solutions that protect your network, users, and data from continually evolving threats.

FortiVoice

Voice-over IP phone system.

Infosec

Security education for every role! Infosec is the only security education provider with role-guided training for your entire workforce.

Juniper

Juniper Networks is now part of HPE. Together, we're building industry-leading, secure, AI-native networks—purpose-built with and for AI. As AI and networking converge, we're driving a bold transformation across enterprises, service providers, and cloud operators.

KnowBe4

KnowBe4 is the world's largest integrated platform for security awareness training combined with simulated phishing attacks. Join their more than 50,000 customers to manage the continuing problem of social engineering.

Linewize

The world's most comprehensive student safety platform. Linewize combines world-leading technology in online safety education, IT administration, teaching, and student safeguarding.

Microsoft

File, print, active directory, SQL databases, exchange email, system center management tools.

Micro Focus Software Inc.

Linux file, web, and print services. ZCM application and policy management, ZMM mobile device management, and Filr (similar to Dropbox, but onsite and managed by your schools).

Ruckus

Manufacturer of wireless (wi-fi) networking equipment for enterprises and service providers based on smart Wi-Fi technology.

Skyward Managed Services

Option for districts to run their Skyward server onsite, but have Skyward do the updates and monitoring.

SGS - Skyward Backstage Manager

An application that Skyward uses to monitor any school that uses managed services.

Skyward Secure Hosting

Secure cloud computing solution for Skyward products. Also provides disaster recovery (DR) for districts that have their own servers. DR services send the Skyward backup files to Skyward Secure Hosting for restoration in a disaster.

SonicWall (Dell)

Secure anyone, anywhere on your terms. Deploy what works for you—where it works for you. SonicWall helps you build, scale and manage security across cloud, hybrid and traditional environments. Evolve secure cloud adoption at your pace.

VEEAM

Own, control, backup and recover your data anywhere in the hybrid cloud. Ensure business resilience, protect your data from malicious actors and eliminate data loss and downtime. Veeam is a global leader in data protection!

Verkada

Verkada develops cloud-based building security solutions such as video cameras, access control systems and environmental sensors that leverage artificial intelligence.
