Migrating to Qmlativ

What are your hesitations?

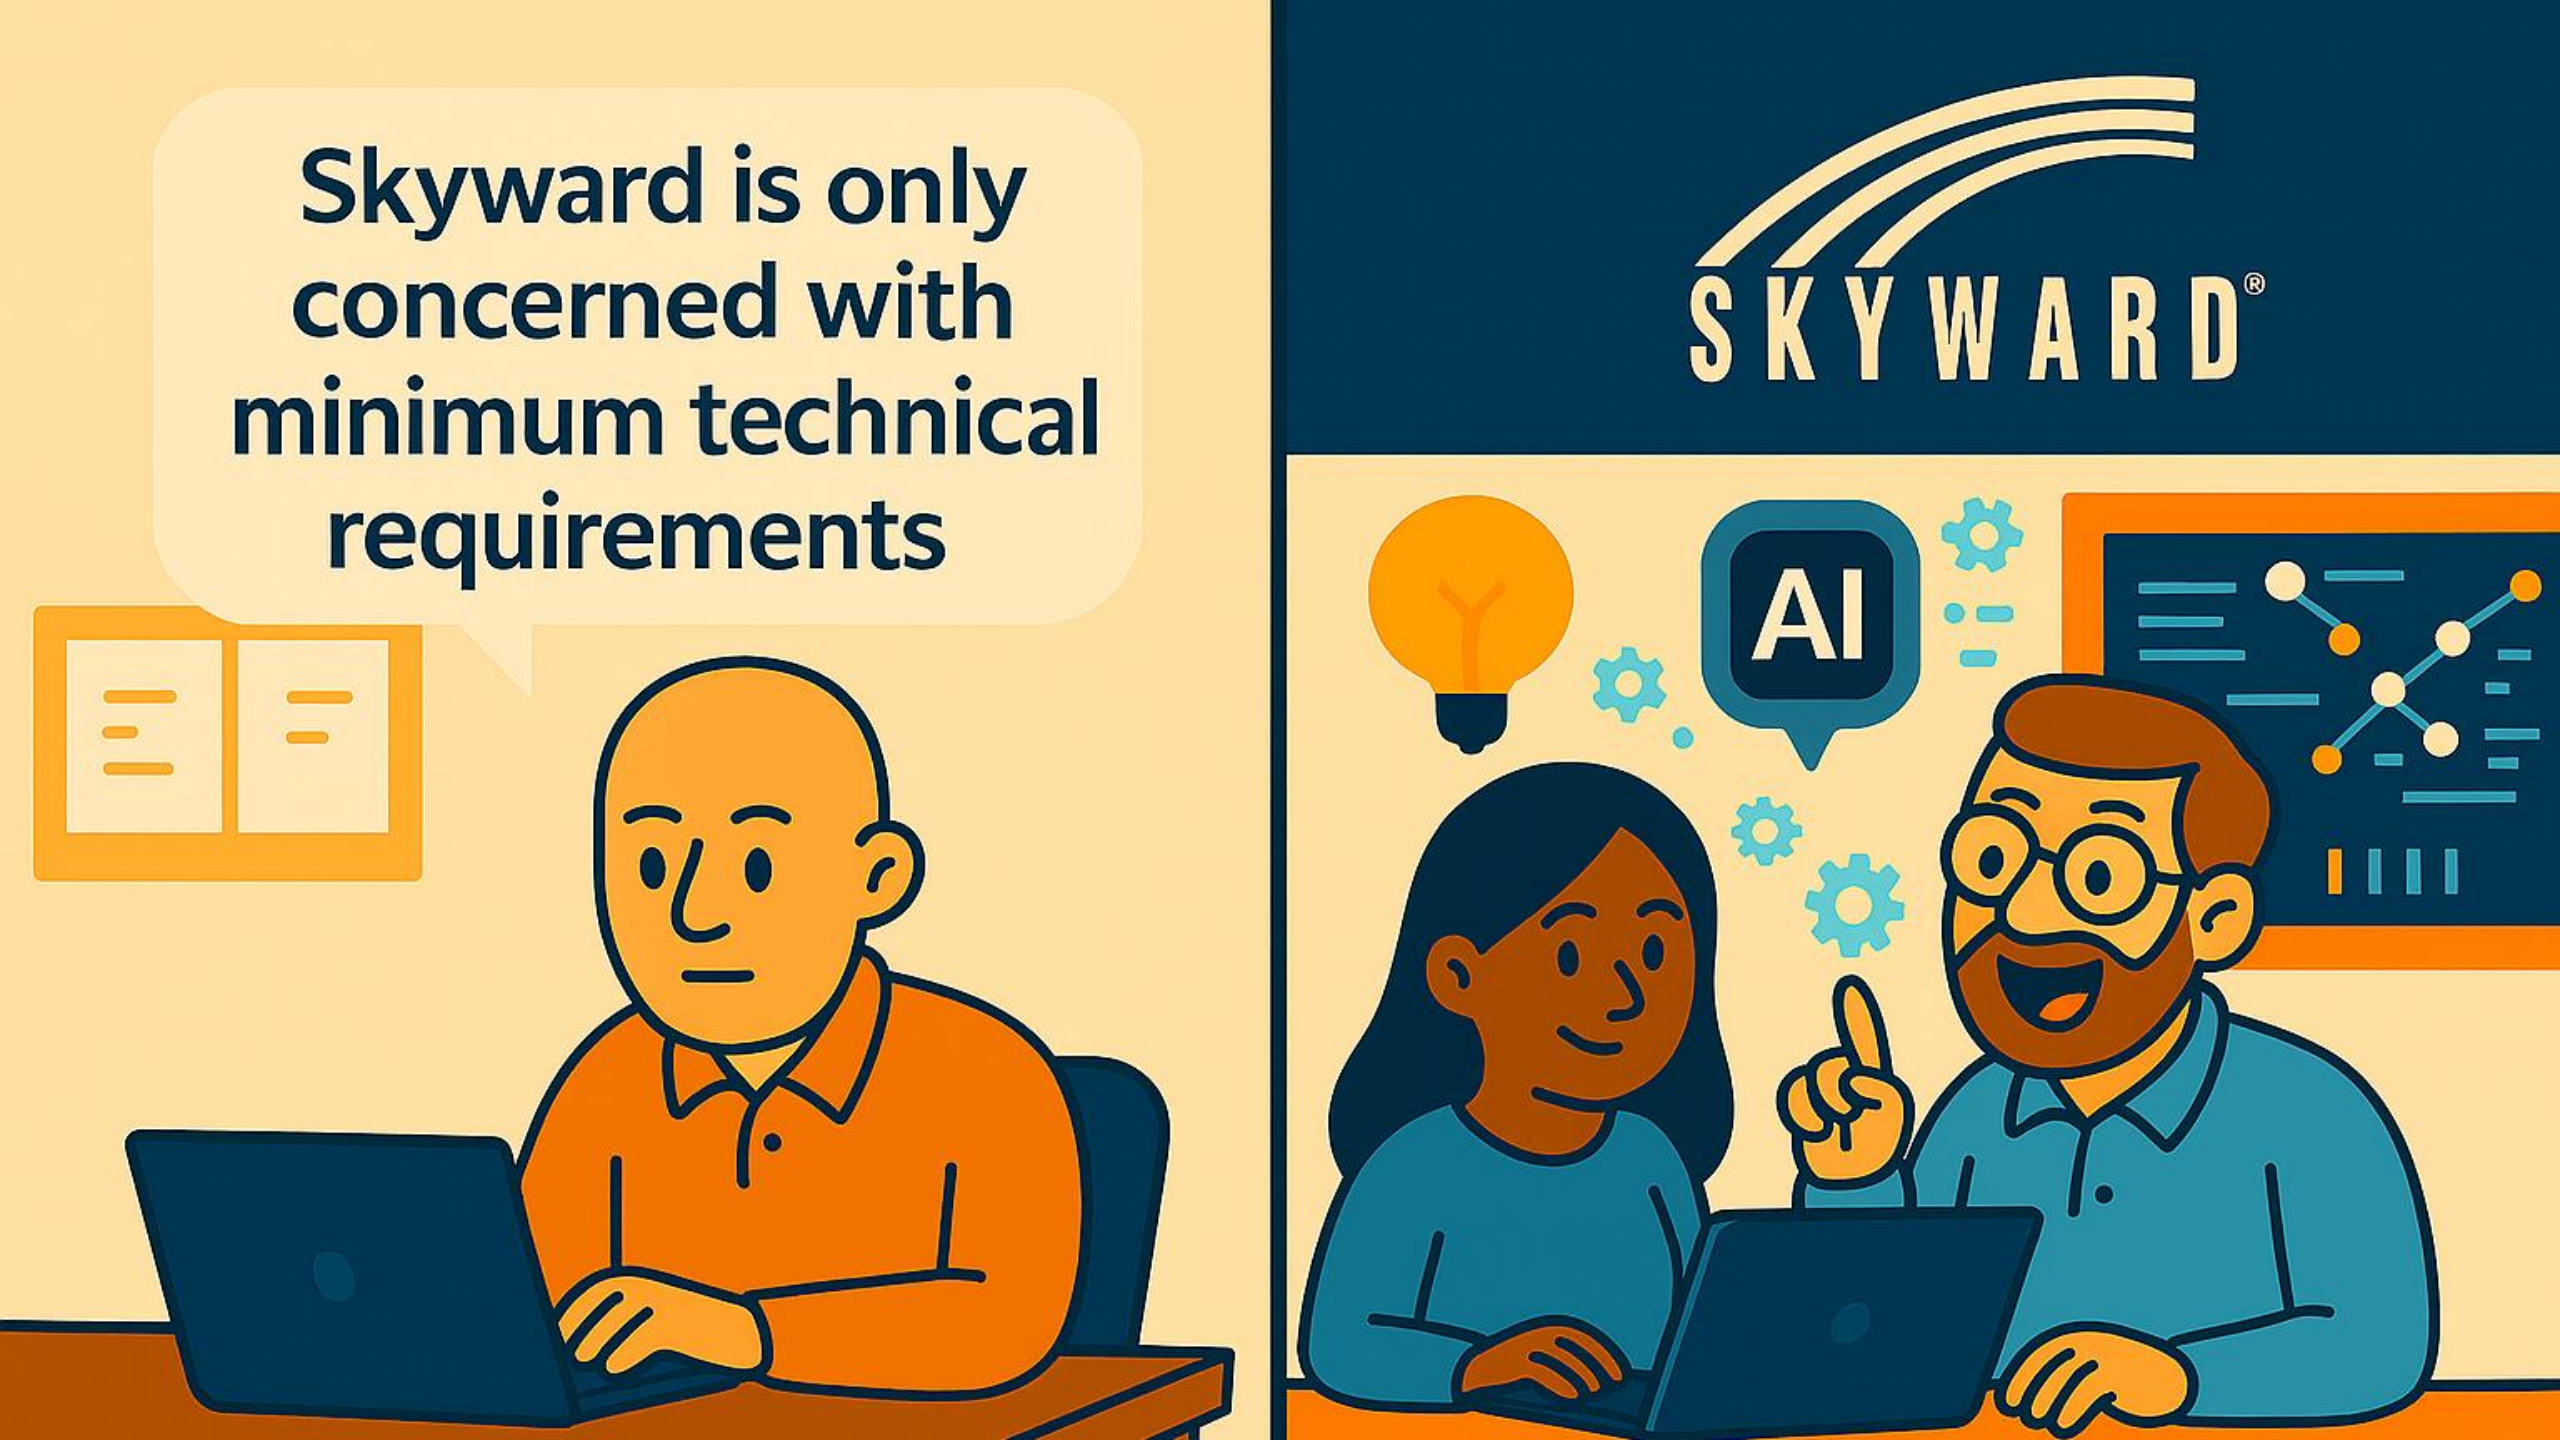

What do you wish you knew before migrating?

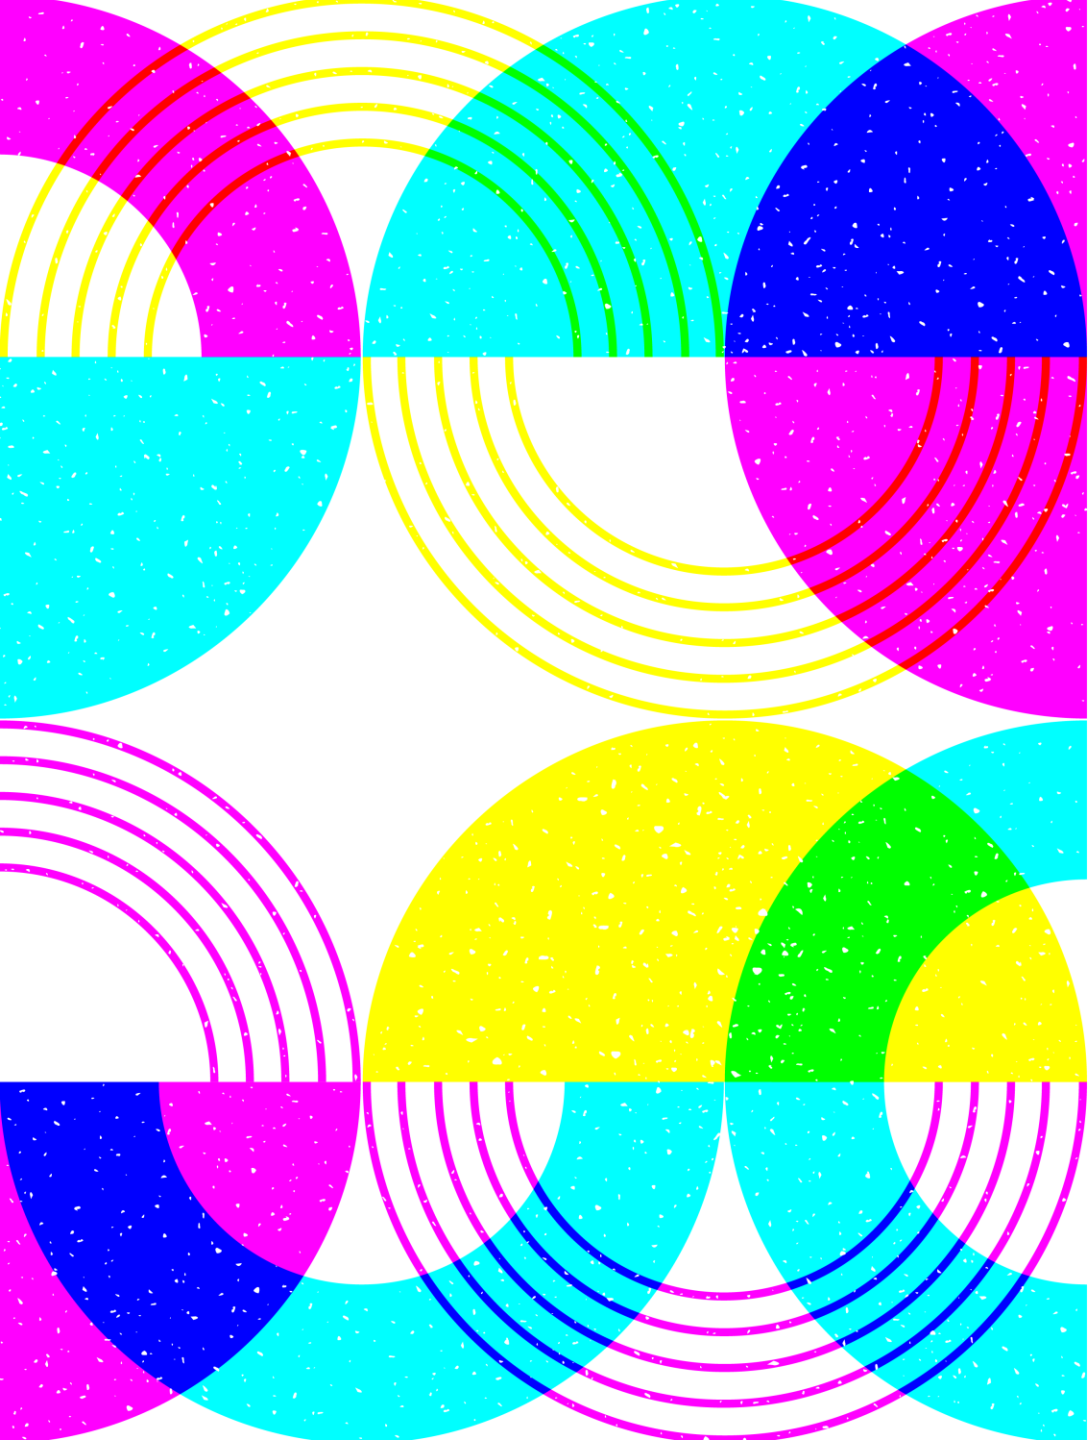

What would you have done differently?

Qmlativ is just SMS with a new user Interface
Qmlativ doesn't have all the features that SMS has

Skyward is built for small schools
Qmlativ is designed for large schools only

Nobody looks at these anyways
HOW ABOUT A RAISE?
PRODUCT IDEAS

Skyward is only concerned with minimum technical requirements
