Workshop: Guided Sandbox Experience

Hands-On Learning in Action

Kaila Durnen – SIS Solutions Engineer
Calvin Williams – SIS Solutions Engineer

Session Description

Ready to roll up your sleeves and dive into Qmlativ student's software?

This guided sandbox workshop gives you the chance to actively explore Skyward's user-driven features in a safe, simulated environment—with practical walk-throughs designed to build confidence and familiarity._

please bring a laptop/tablet to this session

Session Agenda

We will have sandbox environments for the following personas:

- Counselor
- Front Office
- Guardian
- Principal
- Teacher

Session Agenda

Guidebooks will be available for each personas.

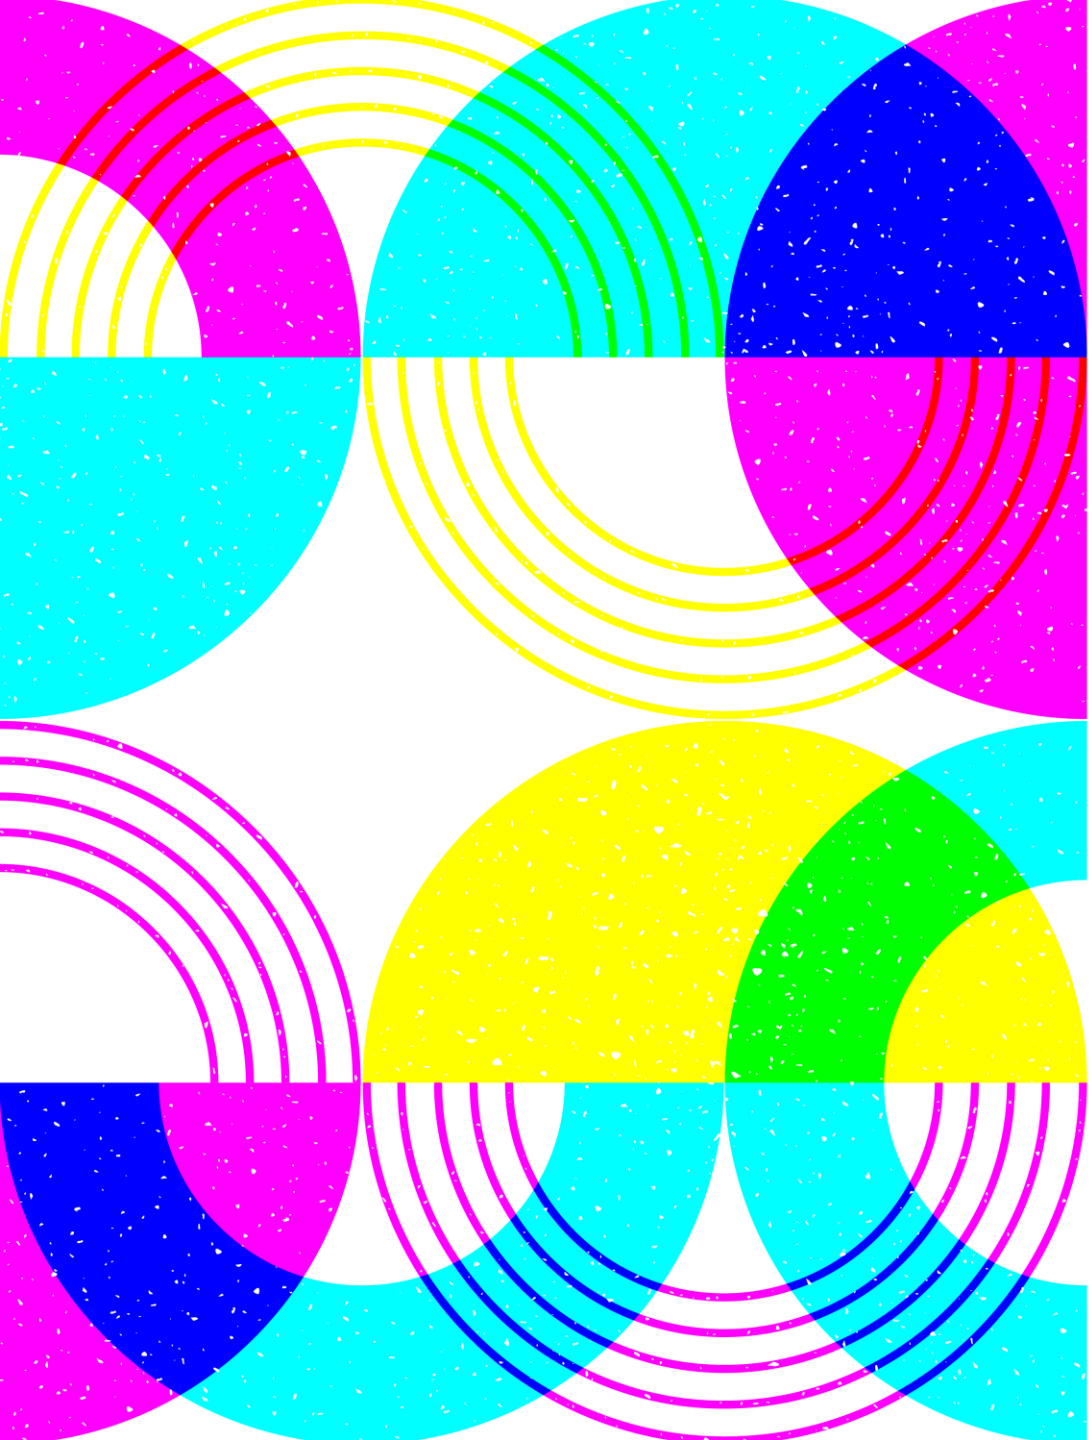

A demonstration will be provided at the start of the session, and the remainder of the session will allow for independent work using the provided guidebooks for each persona.
